

# Exercises for Chapter 01 - Part02

1. Read the following text and answer.

*“ I like to activate my computer every day. I have a large monitor and lots of things on my desktop. Sometimes, I use a laptop which is also called a notebook. Sometimes, I use a tablet, and I particularly like to surf the internet on my desktop at home. I use a personal computer and I have lots of software. My favorite search engine is Google. I use it at work as well, and my company collects a lot of data. It stores client’s emails and information in a large database. I use a disk to store when I download things that interest me and occasionally, I upload pictures to my social network. I do have a large network generally. I like to use a mouse and the keyboard. I’m lucky that I have a fast modem as part of my hardware, and being a user of the Internet, I download things and file what I need in folders.*

*I have my own web address with a fabulous homepage. I also make sure that I have a reliable firewall so that it can stop people hacking into my website. Everyone needs to be careful of hackers, Trojan horses, spyware, malware, and viruses. I had a virus once which ruined my motherboard.”*

1.1. List the different computer hardware components cited in the text

- **monitor – disk – mouse – keyboard - modem - motherboard**

1.2. List the different computer software cited in the text

- **search engine – google – firewall -**
