

## Social Problems

Social problems are issues that affect many people in a society and create negative effects. These problems can harm individuals, groups, or entire communities. They are often connected to social, economic, and political factors.

Some examples of social problems include:

- **Poverty:** When people do not have enough money to meet their basic needs, like food, shelter, and clothing.
- **Unemployment:** When people who want to work cannot find jobs.
- **Racism:** Discrimination against people based on their race or ethnicity.
- **Crime:** Activities that break the law and can harm individuals or society.

Understanding social problems helps us find ways to solve them and improve our communities.
